#52	Pacific Biosciences of California, Inc. Challenged	3.0 / 10	Menlo Park, US
#53	Genprex, Inc. Challenged	2.0 / 10	Austin, Texas

METHODOLOGY

How the Cyborg Score is built

Every company in the AskCyborg corpus is stress-tested by a panel of AI analysts arguing across 11 dimensions: business model, financials, leadership, competitive position, products, operations, growth, technology, regulatory exposure, news flow, and outlook.

The Cyborg Score (1-10) is the part of that case that survived stress-testing — not the consensus that nobody pushed back on. Scored 8+ companies have survived attempts to argue them down. Scored 4 or below have unresolved structural questions a buyer or investor should know about.

Scores recalibrate weekly. Full methodology at:

askcyborg.com/methodology
